Frontend Developer | React& Javascript

A proficient front-end developer with experience in building web and mobile applications using **React Js/ Native, Vanilla JavaScript,** and various other modern technologies. Adept at designing, developing, and maintaining robust applications. Experienced in working in **Agile** teams, collaborating closely with product owners. Additionally skilled in **UI/UX design**, with a solid foundation in Figma for mobile and web design projects.

Worked as a Wordpress developer, crafting and optimising web pages using Elementor and applying **SEO** principles.

Professional Experience

DILAXIA — 2024 - Present
Remote, Frontend Developer

- Optimized and maintained web pages for for **YNAP** (Yoox Net-A-Porter Group), including **ARMANI.COM** and **MONTBLANC.COM** using **Vanilla JavaScript**, ensuring cross-browser compatibility and high performance.
- Integrated **CoreMedia** and **Algolia Search AI** tool to enhance content management and search functionality.
- Utilized **ASP.NET** and **C#** to modify robust backend solutions.
- Worked in **Agile** environments, ensuring continuous delivery of high-value features through iterative development and regular feedback cycles, participating in PI Planning, Sprint Planning, Daily Stand-ups, and Retrospectives to align business goals.

Commit SRL — 2022 — 2024
Frontend Developer

- Developed and maintained both mobile and web applications using **React**, **Vanilla JavaScript, Vue.js, and Nuxt.js.**
- Built with a range of UI component libraries such as **Kendo UI, Material UI, Ant Design, and PrimeFaces** styling using **Tailwind, Sass, and pure CSS.**
- Worked on the design, development, and testing of both new and existing projects, incorporating **RESTful APIs** for seamless communication between front-end and back-end systems.

Wordpress Developer
Intermedia.al/ UPWORK — 2021 - Present (Freelancer)

- I used WordPress to create and maintain websites, using Elementor builder and custom **HTML/ CSS** and **PHP**.
- My responsibilities included conducting **SEO audits**, managing plugins, and troubleshooting technical issues.
- I also utilized website analytics to monitor performance, form submissions and user behaviour.
