

JONIDA BACI

Wordpress Developer

+355 69 471 8883 jonida.baci99@outlook.com **PORTOFOLIO**

ABOUT ME

WordPress & Front-End Developer with experience building fast and reliable websites using WordPress and page builders like **Elementor** / Elementor Pro *(but not limited to)* and a wide range of **themes**. I can develop clean, flexible sites using a minimal number of plugins, ensuring better performance, security, and long-term stability. Experience in building simple custom plugins with **PHP or Javascript**.

Skilled in **multilingual** setup, contact form and **SMTP integration**, **analytics** tracking, performance tuning, **SEO practices**, and ongoing website maintenance.

EDUCATION

2028 - 2021
Albanian University of Computer Science

Bachelor Degree in Computer Science

Studied in key areas such as C/C++ programming, Java development, database management using Oracle, operation systems, computer networking, computer architecture, language theory, and software engineering.

EXPERIENCE

2021 - 2022
Intermedia

Wordpress developer

Created **responsive** web pages using **WordPress**, HTML5, and CSS3. I often **designed** the websites myself as I built them, ensuring a smooth and intuitive user experience. My expertise includes cross-browser compatibility and on-page SEO, using tools like Yoast SEO to optimize content and improve search engine rankings.

2024 - Present
Partner at **Vibrance.al**
Marketing & Design Studio

Wordpress Developer

I lead web development projects, building responsive, SEO-optimized websites for a range of clients. In addition to development, I often contribute to **content** writing, video editing, and design tasks, depending on the project's needs. My role blends technical execution with creative direction to deliver complete digital experiences.

2022 - Present
Dilaxia Solutions

Frontend Developer

Developing mobile and web applications using technologies such as Vue.js, Nuxt.js, **Vanilla Javascript** and mostly **React** js with frameworks such as Ionic, Kendo UI, MUI, Syncfusion and PrimeFaces.

CORE STRENGTHS:

- Pixel-perfect design-to-code from Figma/XD
- Elementor / Elementor PRO
  Flexible to work with other builders of your choice
- Contact form integration, SMTP setup & analytics tracking
- Content creation with keyword strategy
- Performance tuning & SEO optimization
- Multilingual website setup
